

DIY Terrarium

- Step 1:** Place your rocks at the bottom on your glass jar.
- Step 2:** Place your colored charcoal over the rocks.
- Step 3:** Then pour half of your potting soil over the rocks and colored charcoal.
- Step 4:** Place your plant in the jar and add the remaining soil.
- Step 5:** DECORATE! Place your moss over the soil but not covering the plant. Add seashells, rocks, and ornaments.
- Step 6:** Water your new plant but only a little bit! (They don't like lots of water) Put him in the sun!
- Step 7:** Ask your parents to send us a photo!
